Elks Hold Installation of Officers For 1944

D.D.G.E.R. Bro. Pitt, of Granum Installing Officer; Many Blairmore Elks in Attendance; Herb Sherratt New Exalted Ruler.

Coleman Elks were genial hosts to visiting Elks from Blairmore and Granum at their meeting on Thursday evening, Jan. 13. D.D. G.E.R. Bro. E. L. Pitt, of Granum, was present to preside at the installation of officers of the local lodge.

Prior to the installation of officers the Christmas dance committee chairman reported on the dance receipts. Net receipts totaled \$214, 50% of which would be sent Mrs. Alex. Chalmers, at Toronto, to help defray hospital expenses for her young son, now in a Toronto hospital. The balance would be given to a worthy charity locally.

A report was also received on the Christmas hampers to local needy, boxes of chocolates sent to wives of local Elks now in the armed forces and the two free matinees for the Coleman kiddies. In regard to the latter 500 children had been accommodated at the Boxing Day matinee and 700 on Thursday, Dec. 30 matinee. Expenditure for these items totaled \$250.

Following this meeting D.D.G. E.R. Bro. E. L. Pitt took charge of the proceedings and installed the 1944 officers into office. Officers included:

Exalted Ruler Bro. H. Sherratt
Past Exalted Ruler Bro. N.J. Nicholas
Leading Knight Bro. G. Jenkins
Loyal Knight Bro. A. Wilson
Lecturing Knight Bro. F. Kynel
Secretary Bro. J. E. Wood
Treasurer Bro. J. M. Rushton
Historian Bro. T. Holstead
Esquire Bro. R. Bell
Chaplain Bro. S. Krzywy
Inner Guard Bro. S. Krzywy
Tyler Bro. A. Cornez
Organist Bro. Bert. Bond
Trustee Bro. W. Gate

Following the installation Bro. E. L. Pitt spoke highly of the manner in which the local members conducted their meetings, and especially the welfare work accomplished by Coleman lodge. Other members spoke briefly.

Following the brief addresses Blairmore Patrol team gave an excellent demonstration of their floor work, which was received with much appreciation.

Upon completion of official business the entertainment committee came into its own and a most enjoyable social evening was enjoyed.

COUPON CALENDAR

January 20: Valid—
Butter coupons, Nos. 46 and 47.
Meat coupons, No. 35 (pair).
January 27: Valid—
Tea or Coffee coupons, 28 and 29.
Meat coupons, No. 36 (pair).
Expiry dates—
Butter coupons Nos. 42, 43, 44,
45 expire Jan. 31, 1944.
Meat coupons, pairs, Nos. 30, 31,
32, 33, 34 expire Jan. 31, 1944.

Tinned salmon joined the list of rationed goods on Jan. 17, and is now obtainable in exchange for meat coupons at the rate of quarter-pound of salmon per coupon.

DANCE IN COMMUNITY HALL, FRIDAY, JAN. 21

Dance lovers can kill two birds with one stone on Friday evening. The Coleman Community hall committee are sponsoring a dance and have secured Arcadian's orchestra to supply the music. The dance is intended to raise funds to help wipe out the 1943 operating deficit on the hall. By attending the dance you will enjoy an evening's real dance enjoyment, and secondly you will be doing your share to help the hall meet expenses and thus enable it to maintain its status as an asset to the community.

If this dance is a success it's quite possible the hall committee will sponsor similar dances at regular periods.

Coleman Red Cross Needs More Active Members

Few Attending Meetings and Work Committee Requires Many More Workers; Red Cross and Polish Society to Co-operate with Dances

A meeting advertised as the annual general meeting of the local branch of the Canadian Red Cross, was held on Tuesday evening. Due to the fact that only six persons attended very little business was transacted. The next meeting will be held on Feb. 22 at which time the financial statement will be read, election of officers take place and several other important items of business.

President Dutil reported on the meeting between the Red Cross and the local Polish Society re: Saturday night dances. It was agreed that the two organizations would alternate every two Saturdays, the Red Cross to be given the next two Saturdays and the Polish Society the following two. This arrangement would continue throughout the summer and spring months. The dances will be held in the Polish hall.

It was revealed that the 1944 Red Cross drive would take place the first two weeks in March.

A letter of thanks will be sent Auditor Joe Emmerson for his fine and much appreciated work during 1943.

The financial report was accepted and a vote of thanks given secretary J. A. Park for the manner in which he kept his books and money records.

Mayor Antrobus to Seek Re-Election

Councillors W. Dutil and G. Jenkins Will Also Seek Re-Election to Office

At the end of this month the terms of Mayor Antrobus, and Councillors Wilfrid Dutil and George Jenkins expire on the town council.

In interviews with The Journal all three men have voiced their intention of seeking re-election at the municipal elections to be held in February.

Mayor Antrobus is on the verge of completing his second term as mayor. Councillor Dutil has sat on the council for the past three years, his being a three year term, and Councillor Jenkins has been in office the past four years, starting in 1939 to replace Councillor Angelo Gentile, who resigned.

Land-Sea Aircraft Umbrella Beats Determined U-Boat Attack on Atlantic Convoy

The safe passage of another valuable convoy across the Atlantic despite powerful forces of U-Boats was assured by carrier borne aircraft of the Fleet Air Arm, working in co-operation with land-based aircraft. In two days of attacks one U-Boat was destroyed, another probably destroyed and others may have been damaged. U-Boat prisoners were picked up by H.M.S. Escapee after the submarine had been attacked and sunk by aircraft of H.M.S. Archer.

Picture shows: Lieut. H. Schaufel the only officer to survive the U-Boat sinking, on his way to prison camp.

To Count All Homes That Must Have Ashes Removed In Town Area; Will Hold Special Meeting Re. Ashes This Week

Two Tenders Received to Haul Ashes; Dump Inspector Complains About Town Dump; Police Report Received.

Regular meeting of the council was held on Monday evening. Present Mayor Antrobus, Councillors Aboussafy, Cox, Dutil, Ford, Jenkins and Ramsay.

Lieut. S. Nahmery, of the Salvation Army was present. He took exception to a statement carried in the council report two weeks ago that the S.A. Red Shield had received a \$10 grant recently. Investigation revealed the grant had been given in Feb., 1943.

Steve Bettinger, town dump inspector, was present to complain regarding the condition of the dump. He blamed H. Massen for starting to dump in the wrong place. Despite his directions and warnings to others he had been ignored and instead had received abuse. He stated the condition of the dump was terrible. Council will warn all users of the town dump that they must abide by the directions of Mr. Bettinger in future. Failure to do so will result in the police paying them a visit.

Mr. McKllyn was present to inform council that he had given consideration towards making application for the ash removal job but found he would be unable to handle it satisfactorily.

Mike Androschak and son were present to obtain facts and figures pertaining to ash collections. Following some explanations by a few councillors it was agreed that he contact Works & Property committee chairman W. Dutil on the matter on Tuesday afternoon.

Two letters were received from recipients of Christmas hampers thanking council for same.

The Salvation Army sent a letter of thanks for the \$10 grant to aid in building the new hospital wing at Calgary.

Council now have a clear cut understanding regarding the Workmen's Compensation Board as against the Old Age Pension. A letter was received from the Board in answer to a question asked by council. It read: "We wish to advise that a workman in receipt of a pension for per-

manent disability from the Workmen's Compensation Board, is paid the pension that has been awarded without regard to his eligibility for Old Age pension."

A letter has now been sent to the Old Age Pension Board asking it to clear up some points the council is doubtful about.

Town Solicitor Sam Bannan was present and stated that before the title deeds to Dave Gillespie's lot on Fifth street could be rectified it would be necessary to get a qualified government surveyor to deal with the matter. Such a man usually visits this district each spring. Mr. Bannan will write Mr. Gillespie explaining the matter to him.

A letter was received from the school board informing council that two vacancies would occur on the Board at the end of present term.

Two Old Age pension applications were received. Council will recommend that the elderly couple be given the pension.

The insurance premium on the truck expires Jan. 26, '44. The present policy is for \$3,800, the premium being for \$74 some odd cents. It was agreed to renew that policy. A suggestion to boost the insurance on the arena caused a debate. Those in favor of increased insurance won their point when Mayor Antrobus broke a 3-3 vote in favor of boosting the insurance another \$1,200. This makes \$5,000 carried on the building. The policy will be paid by council who will in turn invoice the Sports' Association.

A. Balloch was appointed returning officer for the next municipal elections.

Police Chief Antle submitted his police report for 1943. It dealt with numerous cases and convictions, amount of fines, etc.

The Municipal inspector's report was received. It revealed that office books were up-to-date and all money accounted for. On the whole it was a most excellent report.

Mayor Antrobus stated that the new and larger honor roll was expected from Ottawa shortly.

D. Bouthillier tendered on the ashes. He asked \$6c per house per month.

(Continued on Back Page.)

SOLDIERS PICTURE REQUIRED FOR SPOTLIGHT SERIES

The Journal is in need of a number of pictures of Canadian men and women serving in the armed forces. These pictures are required for the Spotlight series run weekly in the The Journal and sponsored by The Friendly Store.

It would be appreciated if we could secure approximately twenty this week as this would be sufficient to supply the spotlight series during the next five months. When submitting pictures please take them out of their glass frames. Also send along the history of the subject taking for your guidance the information revealed in the weekly biography of subjects spotlighted in the series.

Slugg And Rypien Doing Well in Edmonton Hockey

Jimmy Slugg and Johnny Rypien appear to be doing alright by themselves in Edmonton junior hockey according to press despatches and a letter received from the Edmonton Canadians hockey team manager, on whose team the local youths are members.

Jimmy in centring the second line and, according to the manager, he has been most unfortunate in not scoring twice in both games he has taken part in. His only bad habit, according to the team manager, is doing too much stick-handling around the red line. This practice is expected to be rectified after a few more games. Jimmy has a few assists to his credit.

Rypien is playing on the wing and while he hasn't scored either he also has helped with assists. An ankle injury suffered here has kept him from getting as much work as Slugg. Both boys are said to be valuable assets to the club. Since joining the team they have helped it win 4-2 and 9-1 decisions and now it leads the league.

CIGARETTE FUND NOTES

Dear Sirs: The other day I was pleased to receive cigarettes sent to me through you. Your thoughtfulness, I assure you, is returned with thanks from one of the home town boys.

I'm sorry it's impossible to tell you what we are doing or where we are at. But when one receives such things from those back home he realizes he is not forgotten.

—Reg. McMullen.

Miss Canadas to Sell Stamps Every Two Weeks

Sold \$72 in Stamps on Saturday; \$60 Signed in Pledges and Will Be Collected Each Pay Day.

Mrs. L. S. Richards, supervisor of the Miss Canadas, has announced that from last Saturday on, the girls will be on the job every pay day selling war savings stamps.

On Saturday they sold \$72 in stamps. Last week Mrs. Richards and her assistant, Mrs. J. Spievak, signed a number of citizens to a pledge to buy a certain amount of stamps every two weeks. By this pledge they have a certain \$60 sale.

The food industry of Canada is putting on a stamp drive during the month of February and some of the local stores have already been lined up. Holyk's, for instance, has forms which a customer can sign his name to and give 25c for a chance on the Gryo wheel at Lethbridge. It is to be supposed the winner will be announced in the Lethbridge Herald. Other stores such as Coleman Cash Grocery, The Friendly Store, etc., will be lined up within the next few days.

In December, Coleman's war stamp quota was \$300. Total sales amounted to \$500.

Victoria Rebekah Lodge Install Officers For 1944

Sister Shevels, D.D.P., and Staff Presided at Installation; Sister A. Vincent is Noble Grand.

Victoria Rebekah Lodge held its installation meeting in the IOOF hall on Tuesday, Jan. 18, with fifty sisters, including guests from Blairmore and Bellevue, present.

Sister Shevels, D.D.P., and staff, of Bellevue, installed the following officers:

V.G.—Sister A. Nash.
R.S.—Sister M. Holstead.
Treasurer—Sister E. Cox.
F.S.—Sister M. Antle.
Chaplain—Sister L. Shonbury.
R.S.N.G.—Sister E. Lonsby.
L.S.N.G.—Sister P. Yates.
I.G.—Sister F. Beart.
L.S.V.G.—Sister L. Nelson.
L.S.V.G.—Sister G. Neilson.

Sister A. Vincent will be installed as Noble Grand at a later date, due to her being unavoidably out of town on installation night.

Following the installation a social evening was enjoyed, supper being served.

Landlords and tenants are entitled to apply to a rentals appraiser, WFTB, for permission to increase or decrease the amount of rent charged for an accommodation.

Notice Of Annual Meeting

PUBLIC NOTICE is hereby given that a meeting of the electors of the Town of Coleman and the Coleman School District No. 1216, will be held on FRIDAY, the 28th Day of JANUARY, 1944, at eight o'clock p.m., for the purpose of receiving the report of the Mayor, Secretary-Treasurer, Auditor, and the Chairmen of the Various Committees of the Council and School Board for the year ending December 31st, 1943.

Dated at Coleman this 21st day of January 1944.

G. LEES,
Secretary-Treasurer.

Main Street Lot for Sale

Bids will be accepted on Lot 6, Block 11, Plan 820L, located between the Frank Aboussafy and Coleman Meat Market stores on Main Street.

COLEMAN TOWN COUNCIL.

Sufferers of Painful SINUS—Get Quick Relief!

Just a Few Drops Relieve Stiffness...
Make Breathing Easier... Give You Comfort

It's grand how Vicks Vapo-nol clears congestion from nasal passages—gives sinuses a chance to drain. Results are so good because Vapo-nol is specialized medication that works right where trouble is—to relieve painful congestion and make breathing easier. Try it—put a few drops up each nostril—follow directions in folder.

Post-War Relief For Europe

FOREMOST AMONG THE MANY problems which must be dealt with by the United Nations at the close of the war, will be that of providing the oppressed people of Europe with the necessities of life. This will be a vast undertaking, and it will have to be commenced at the earliest possible moment after hostilities cease. The urgency of the problem is fully realized and already plans have been made for the alleviation of the suffering of the many thousands of people who are now under Nazi domination. A United Nations Relief and Rehabilitation Administration has been set up, and at a conference held in Atlantic City not long ago, the probable needs of these people, and the means of securing relief for them, were discussed. It is apparent that there will be need of close international co-operation in the gigantic task, and as a great food producing nation Canada will be in a position to contribute much toward the relief of those countries where appalling conditions of famine and disease now prevail.

Estimates Of Future Needs

Some interesting facts relating to the estimated requirements for relief for the occupied countries of Europe during the six months following the end of the war, are contained in a report which was submitted by the Inter-Allied Committee on Post-War Requirements to the United Nations Relief and Rehabilitation Administration conference. This Inter-Allied Committee sits in London, and the figures in its report were based on the opinions of experts from France, Holland, Greece, Belgium and the other occupied countries. It is estimated that Europe's minimum need for food, raw materials and other necessities during the first six months period will be 45,655,000 tons. This does not include the needs of Russia or of neutral or enemy countries. The goods to be imported will require 23,485,000 tons of shipping space, which is a little more than the total shipping space available to Great Britain and the Dominions in 1939. Shipments would be made up of 89,000 tons of drugs and medical supplies, 7,332,000 tons of food, 1,150,000 tons of coal and coke for domestic and industrial purposes, and 9,462,000 tons of base metals and materials for construction work.

European Death Rate Is Rising

These estimated needs for foodstuffs are based on the minimum nutrition requirement, which is 2,000 calories per day for each man, woman and child. At present the diet in these countries is far below this requirement. In Norway it is thought that the present diet may yield 1,440 calories, in many parts of France it is said to be less than that, and in Poland the general diet does not contain more than 500 to 700 calories, according to a recent report released on this subject by the International Labor Office. This same report tells of the wide prevalence of tuberculosis and other contagious diseases in occupied Europe and of rising death rates. It is apparent that many of the most complex post-war problems will be in connection with the relief and rehabilitation of Europe, and much will depend upon the way in which it is approached. The report of the Inter-Allied Committee draws attention to this fact, and concludes by pointing out that "The provision of relief and rehabilitation will be a test of the capacity of the United Nations to rebuild a more prosperous world and realize the most pressing of the four Freedoms: 'Freedom from Want,' in their territories."

Japanese Trick

Broadcast Recording Of Voice Of Man Who Had Died

How a soldier's voice lived on the airways for months after he was reported dead was told at Halifax by a brother, Bert Panceo of Winnipeg, a telegrapher in the Royal Canadian Navy.

Pte. Michael W. Panceo was one of the Canadian soldiers who went to Hong Kong just before the Japanese fell to the Japanese at Christmas time, 1941.

Last August his family had a letter from his doctor saying he had died from beri beri, and a short while later official confirmation of his death came from Ottawa. But for months afterwards people in different parts of the world heard his voice on the radio—the last time in Australia last month, his brother said.

"Hello, mum," said the voice of the dead soldier, then came a few words of greeting and his name and address.

The Japs had made a recording of his message to the people back home, and after his death continued to broadcast it for some reason, said the brother.

Aviation Centre

C.P.R. Air Lines To Establish Main Repair Plant At Winnipeg

T. W. SIERS

The growing importance of Winnipeg as an air centre is further emphasized by the announcement by C. H. Dickens, Vice-President and General Manager of Canadian Pacific Air Lines at Montreal, that CPA will establish its main overhaul and repair plant for both aircraft and engines in Winnipeg.

T. W. Siers, one of the pioneers of Canadian aviation, and presently General Superintendent of Maintenance of Canadian Pacific Air Lines system at Montreal, will open new offices at Winnipeg this month. It is also planned to transfer the company's engineering division from Edmonton to Winnipeg and this work will be under the supervision of Aeronautical Engineer A. G. Clarkson. W. H. Rolfe, now assistant to the Acting Superintendent of Maintenance on Western Lines of CPA at Edmonton, will also be located at Winnipeg as assistant to the General Superintendent of Maintenance.

This new change in the location of CPA overhaul and repair facilities will result in Winnipeg being a central point to do this work for the company's 80 airplanes now flying on routes and in many areas from Quebec to the Yukon. It will mean an increased volume of work for the local aircraft maintenance employees and will also assist in making better known the advantages of Winnipeg as one of the main centres in Canadian air operations and overhaul work.

MOOSE AND BEAR MEAT—Moose and bear meat will be on the menus of the corvette Kamloops and the Moose squadron of the R.C.A.F. overseas. Volunteers at Kamloops, B.C., will can 300 pounds of meat for the sailors and airmen.

The potato is a corruption of the Indian name "batatas."

Quickly Made, Quickly Eaten Is This All-Bran Prune Bread

Now we know why "quick breads" are so named. After the first taste, everyone comes back for more. The whole loaf vanishes, quick as a wink, if you don't watch out! All-Bran Prune Bread is grand for sandwiches. It has a pleasantly moist texture and a grand nutty flavor. Made with prunes and All-Bran, it is rich in iron and Vitamin B.

Perhaps you've thought breads were difficult to make, why not try this recipe and see how simple it is?

ALL-BRAN PRUNE BREAD

2 cups All-Bran 1 egg
¾ cup juice from cooked prunes 1½ cups flour
¾ cup buttermilk ½ teaspoon salt
½ cup sugar 1½ teaspoons soda
1 tablespoon shortening ¾ cup chopped cooked prunes
¾ cup chopped nuts*

Soak All-Bran in juice drained from prunes and buttermilk. Cream sugar and shortening thoroughly; add egg and beat well. Add All-Bran mixture. Sift flour with salt and soda and add to first mixture with prunes and nuts. Stir only until flour disappears. Bake in a greased loaf pan in a moderate oven (325 degrees F.) 1 hour and 20 minutes.

Yield: 1 loaf (8½ x 5½ pan).

*Nuts may be omitted.

Winter Feed For Sheep

Proper Nutrition Plays A Very Important Part In Wool Production

The war demand for still more wool brings into prominence the fact that the winter feeding of roughage to sheep constitutes a problem in the production of high quality wool. Proper nutrition plays an important part in wool production. Half-starved sheep cannot produce wool in quantity, or quality, because the increase in the amount of wool is the result of a combination of factors. The most important factor is plenty of good feed. When proper feed is lacking a short weak fibre is produced and the value of the wool is decreased by at least two cents a pound.

The proper feeding of roughage necessitates a proper manner of feeding it, which in turn demands the greatest care on the part of the shepherd to produce racks of suitable type. A desirable type of rack is one so constructed that small portions of the feeding material, such as chaff and leaves of legumes, may not lodge in the fleece of the sheep as the sheep feed at the rack. There are many types of racks, specifications for which may be obtained by applying to any Dominion Experimental Farm or Station, or Agriculture College.

To protect the fleece of the sheep, when feeding material is being carried to the racks, it should not be passed over their backs. It is better to remove the flock before the racks are to be filled. At all times care should be taken to prevent litter falling on the fleeces. For the same reason, sheep should never be allowed to feed from the side of a hay or a straw rack because such a method is ruinous to the production of high quality wool, through seeds and chaff getting into the fleece.

World Was Searched

To Make Possible Shipment Of Needed Goods To Russia

The volume of goods flowing to Russia over-land via Iran has passed £70,000,000, Sir Francis Joseph, acting chairman of the United Kingdom Commercial Corporation, said in London. He declared that "miracles of improvisation" had been performed to get the material in motion. Supplies have consisted of lead, mica, aluminum, hides and rubber, jute goods, rope cloth, thousands of tons of tea, cocoa and flour, tools, electrical equipment, boots, nails, shellac and graphite. The world was combed to find it all, he explained.

HAS BECOME FAVORITE

A high-speed machine gun—the German Spandau—which fires 1,100 rounds a minute was reported the great favorite of British and American troops in Italy. Thousands of Spandaus, enough to outfit an entire division, were captured in the African and Sicilian campaigns. Allied soldiers with front-line experience knew the fire-eater well from its sound effects of a super-buzz saw.

HEALTH LEAGUE OF CANADA

An Anniversary

For one year every Canadian housewife has held the key to healthful and nutritious meals for her family, for Canada's Official Food Rules are celebrating their first anniversary. In January, 1943, the Nutrition Services at Ottawa gave to Canadian housewives a list of the minimum daily requirements of the foods necessary to protect health. This was one of the ways in which even the busiest housewife could do her bit for her country and her family.

In January, 1944, as we look back over the year, we would each say to ourselves, "Have I done my part?" Do you know the Official Food Rules so thoroughly that you can lift your eyes from this page and recite them? These are the foods that should have been included in each day's menu during the year:

MILK—Adults, ½ pint. Children, more than 1 pint. And some cheese, as available.

FRUITS—One serving of tomatoes or citrus fruit daily; and one serving of other fruit, fresh, canned or dried.

VEGETABLES—One serving potatoes. Two servings of vegetables, preferably green or yellow, and frequently raw.

CEREALS—One serving of a whole-grain cereal. Four to six slices of Canada Approved Bread, brown or white.

MEAT, FISH—One serving of a day of meat, fish, or meat substitute. Liver, heart, or kidney once a week.

EGGS—At least three or four weekly.

Eat these foods first, when available, then add other foods you wish. Some source of Vitamin D such as fish liver oils, is essential for children.

The Nutrition Division of the Health League of Canada, 111 Avenue Road, Toronto, now has, for distribution at less than cost, a colorful calendar portraying simply the foods one should eat daily for proper nutrition. Hang one on your kitchen wall to remind you, through all the days of 1944, that Canada's Food Rules are on the front line for home defence!

Itching Scalp

A Simple Home Treatment

Your scalp has broken out with itchy, burning, redness or irritation—(POST IT!) with flaking scales that only serve to make it worse and spread it. Use your fingernails to get a little of Moore's Emerald Oil and use this mixed with an equal quantity of olive oil. It's easy to use—just apply it to the scalp with your finger tips gently rubbing into the roots of the hair. Do this at least once a day, and about every fourth day shampoo using a good soap. Soon you'll find this combination start right in—promoting faster healing. Continue the treatment until the itching and the loose, flaking dandruff has disappeared.

Continued 2 weeks, and if then you are dissatisfied get your money back. Druggists everywhere sell Emerald Oil.

GEMS OF THOUGHT

AFFLICTION

Extraordinary afflictions are not always the punishment of extraordinary sins, but sometimes the trial of extraordinary graces.—M. Henry.

Affliction is the wholesome soil of virtue, where patience, honor, sweet humility, and calm fortitude, take root and strongly flourish.—David Mallet.

Consider how much more you often suffer from your anger and grief, than from these very things for which you are angry and grieved.—Marcus Antonius.

Envy, rivalry, hate need no temporary indulgence that they be destroyed through suffering; they should be stifled from lack of air and freedom.—Mary Baker Eddy.

Prosperity is a great teacher; adversity is a greater. Possession pampers the mind; privation trains and strengthens it.—Hazlitt.

It is the temper of the highest hearts to strive to rise upwards when they are most burdened.—Sir Philip Sidney.

TAKE BIG CHANCES

Air Secretary Sir Archibald Sinclair, describing hazards undertaken by medical men to safeguard fliers, told of a medical officer who threw himself from an aircraft at more than 30,000 feet in order to test emergency oxygen equipment. With 2551

To Make Future Secure

If Germany Pays Reparations She Cannot Launch Armament Program

Wilhelm Morgenthau, Norwegian ambassador to the United States, told a press conference that Germany should be forced to pay "as far as possible" for war damage, with a view to blocking her rearmament for the third world war. He explained it was not a matter of getting revenge, but the dictates of experience following the First World War. He pointed out that within a few years after Germany had ceased paying reparations, she had launched a large-scale armament program which made possible her attacks on other countries. "Our point-of-view," said the ambassador, "is to secure future generations against a third attack by the mechanized barbarians on the freedom-loving countries."—Sault Daily Star.

NATIONAL RESEARCH COUNCIL MAKES VITAL CONTRIBUTIONS IN CONNECTION WITH WAR WORK

OTTAWA.—The National Research Council, in a review of its operations, said that scientific research in Canada probably reached the peak of its contributions to the armed services in 1943.

Science had served the forces in radio-location instruments and the optical glass for their manufacture; aerial photography and cameras; ballistic developments of importance in gunnery; new and powerful explosives; defence measures in chemical warfare; improvements in the design of nearly every item of clothing for special conditions such as tropical and Arctic warfare, including flying and navy needs; nutrition, safe storage and transport of food; camouflage; design and construction of aircraft and tanks.

A new aviation fuel, motion sickness, special vaccines, air transport of wounded, and medicine in all its applications under service conditions had been studied.

"Highly technical problems have arisen from anti-submarine warfare and minesweeping operations," said the review.

The council also had developed secret radio-location equipment which was placed in the hands of the services.

"Tests have been made in a 900-horsepower aircraft engine using cracked aviation-type gasoline made by Canadian refiners. This investigation was followed by tests in flight for a period of three months. For use in training aircraft, fuel of this type has been found entirely satisfactory and a specification has been prepared. Canada is leading in this investigation which may materially assist in increasing the aviation gasoline supply."

Seeking substitutes in making parachutes, the council successfully developed a man-carrying chute using nylon in the canopy, shroud lines and sewing thread. Viscose rayon was used as a substitute for silk.

The council said: "Investigations on modified curing practices for bacon resulted in the adoption of a standard cure by Canadian packers. Research on the drying of pork has yielded an excellent product which retains about 75 per cent of its natural vitamin B1 content after cooking and drying."

"Specifications for the processing and storage of dried eggs prepared for the special products board and the Canadian army have been accepted by those bodies as well as by the industry and the British ministry of food. Packages based primarily on fibre and wax combinations have been found useful. Dehydrated products require packing in waterproof materials."

Some 40 active committees now are working under the council's auspices.

Three service committees have been established—aviation medical

research; naval medical research, and army medical research.

The council has directed and co-ordinated research in Canadian universities on 60 projects dealing with problems on the production of explosives now in use, and the development of new explosives.

MAIL FROM CAIRO

Over Three Tons Brought To Ottawa By R.C.A.F. Plane

OTTAWA.—The first R.C.A.F. overseas mail squadron aircraft to complete the round trip from Ottawa to Cairo brought to Canada three and a quarter tons of home-war-bond service mail from soldiers, sailors and airmen in the Mediterranean war theatres and Great Britain.

The R.C.A.F. said that letters from base post offices in Italy, Sicily, North Africa and Great Britain made up the first consignments, and that members of the Dominion's three fighting forces were quick to make use of their newest service.

On the last 12½-hour leg of the journey, F/Lt. W. H. McIntosh of Winnipeg piloted the giant Flying Fortress.

McIntosh, completing his second two-way Atlantic crossing, said the trip was "first rate." Later he confessed to have made a cross-wind take-off, and that engine trouble had barred the first hours.

He and his crew braved a lowering ceiling and a night landing to get the mail through.

AMERICAN GENERALS

Decorated By Order Of King George For Meritorious Action

ALGIERS.—Eighteen American generals, including Lt. Gen. George S. Patton Jr. and Mark W. Clark received British decorations by order of King George VI for meritorious action in the Mediterranean.

Patton, commander of the U.S. 7th army, was made a Companion of the Order of the Bath on recommendation of Gen. Sir Harold Alexander, Allied commander in Italy.

The citation said the decoration was for his work as commander of the American second corps during the Maktessy battle in southern Tunisia last year.

The decorations were conferred by the new Allied commander in chief, Gen. Sir Matland Wilson, in a colorful ceremony. The other generals were praised in their citations for staff work and field leadership.

SPANISH GANGSTERS

LONDON.—Asserting that Spanish troops still are fighting in Russia, with more being sent to the front, the Soviet information bureau in Moscow declared that "the Spanish gangsters" covering themselves with the mask of neutrality, continue to serve Hitler faithfully."

products they were suited to produce, and making such food available to others.

The 12,000,000 people in Canada could not use all the food their country produced. Either 12,000,000 more people would have to come to Canada to consume the additional food produced, or the 40 per cent by which Canada had increased her production would have to be exported, less the six per cent by which Canadian consumption had risen.

J. H. Evans, Manitoba provincial deputy minister of agriculture, said Canadian progress in quality hog and poultry production was second to none, and British hogs and poultry now were not better than Canada's best.

LONDON.—British food ministry officials welcomed news from Ottawa that Canada will be able to continue supplying the United Kingdom with 500,000,000 pounds of bacon annually for as long as is wanted and said this "removed the risk of a cut in the British bacon ration."

A food ministry official said the ministry was highly pleased that Canada is letting Britain have a larger supply of bacon than she originally intended to send.

CHARGE REDUCED

Storage On Grain In Country Elevators To Be Lower

OTTAWA.—A wheat and flax storage charge of 1-60th of a cent a bushel a day in western country elevators, a reduction from the previous charge of 1-50th, will be effective as from Sept. 28 to July 31, the end of the present crop year, Trade Minister MacKinnon said.

The reduced charge was agreed upon at a meeting between the Canadian wheat board and the cabinet wheat committee here.

The reduction applies only to storage in country elevators, and the charge of 1-50th of a cent will continue at terminal elevators.

Mr. MacKinnon said there had been no discussion of continuing the 1-60th rate past the end of the present crop year.

The reduced charge will affect only wheat and flax as holdings of these grains have been taken over by the government.

MAY BE INCREASE

More Light Steel Wares May Be Available Soon

TORONTO.—H. H. Foreman, federal steel controller, said in an interview here there is hope for an increase within the next three months in the production of light steel items such as rails and wash tubs, material for which is at present in the restricted range.

"We hope there will be some change in the situation with regard to light steel within the next three months," Mr. Foreman said. "Production will be increased as more material becomes available. Our problem is now largely one of manpower."

Now War Worker

Helen Gray Fraser, one-time Hollywood glamour girl, is now employed in a Canadian war plant. Her husband, Flight-Sgt. Fergus Fraser, is overseas with the R.C.A.F. It was back in 1933 in Medicine Hat, Alta., that Helen Gray won her chance to go to Hollywood as a result of "The Quest for Beauty" contest.

FROM WEST AFRICA

Frontier Force Armies In India To Serve With Allies

LONDON.—The Royal West Africa Frontier force, recruited from Nigeria, Gambia, Gold Coast and Sierra Leone, has arrived in India to serve in the Allied southeast Asia command of Admiral Lord Louis Mountbatten. It is the first time in the history of the four colonies that the West African force has been sent to an overseas theatre of war.

SPANISH GOVERNMENT ASKED TO EXPLAIN TIME BOMBS FOUND IN ORANGE SHIPMENTS TO BRITAIN

WHEAT FOR INDIA

Part Of Gift From Canada Will Be Shipped Soon

OTTAWA.—Arrangements have been completed for the shipment to India of part of the gift of 100,000 tons of wheat which the Dominion government offered to the government of India to assist in the alleviation of famine conditions, Prime Minister Mackenzie King announced.

The shipment, delayed because of the difficulty of securing shipping space, is expected to leave Canada "at an early date," the prime minister said.

Despite the delay, "it is expected... that this consignment will arrive in time to provide a valuable addition to food supplies in India."

GREATLY REDUCED

Britain Had Few Casualties From Air Raids In December

NEW YORK.—Air raids on Britain last month caused the death of 10 persons, the BEC said. "Hospital cases numbered 41," BEC continued. "These casualties are a seventh of those of the previous months. Since the war began more than 48,000 people have been killed in air raids in this country."

LONDON.—Time bombs hidden in cargoes of long-coveted oranges shipped from Spain have delayed distribution of the fruit in Britain, the ministry of food announced, and the foreign office has asked the Spanish government to determine the background of the plot.

Britons, who now seldom see an orange or other citrus fruit and who have paid as high as £15 (about \$67.50) for a single lemon sold at a war benefit auction, were jolted harder by the news of the delay than by the word that the fruit was garnished with bombs.

Two of at least three orange ships en route to Britain were found to have secret caches of explosives.

An explosion aboard one of the vessels about 10 days ago destroyed between 200 and 300 cases, each containing 60 pounds of oranges.

No casualties were suffered by the crew but there was damage aboard.

An examination of the next ship's cargo revealed a time-bomb secreted among the fruit and it was announced that a third ship laden with oranges which has not yet docked will be carefully searched.

The bombs were described as small type, probably not much bigger than an orange.

Some of the fruit came from Palestine, but most of it came from Spain.

The food ministry announced last Dec. 21 that oranges would be available to rationed book holders at the rate of one pound per person each four weeks beginning early in January and continuing until March or April.

The bombs were believed to be the work of Nazi agents in the Spanish port of Valencia.

More Industries Are Needed For Western Canada

SASKATOON.—Small rural industries for the crushing of flax seed, the processing of fibre, the production of alcohol and the manufacture of starch were seen as future possibilities for western Canada by Dr. J. A. Anderson, chief chemist, grain research laboratory, board of grain commissioners, Winnipeg, when he spoke on "the industrial utilization of crops" to the Saskatchewan Agricultural Societies' Association. Clapping from the large audience followed his remark that the crushing of flax seed should be done in the west, not only because it was technically feasible but also because of the need here for high protein feeds.

Dr. Anderson prefaced his remarks with a warning about the danger of over-emphasizing the importance of the industrialization on farm crops. Farm crops, he said, were and would be for many years most important for food purposes. Also, the profitable and economic utilization of crops frequently depended first on the solution of production problems. As an example of this he mentioned the production of sunflowers, remarking that it was fortunate that the artificial price now paid for sunflower seed gave an opportunity to experiment with the crop and to see if it could be put on a paying basis.

The speaker also emphasized that he was speaking as a chemist, not as an economist, and while some industries might be chemically feasible, they might not be economically sound.

The fact that Saskatchewan farmers had paid off more mortgages in the past two years than they had in the previous 20 showed what fair prices for farm produce could do for farmers in a short space of time, said W. H. Brown of Estlow, president of the Saskatchewan Agricultural Societies' Association.

Mr. Brown advocated that the government set fair prices for farm produce over a term of years in order that farmers could plan their production objectives and methods.

SPANIARDS EXECUTED
LONDON.—Two Spaniards were executed in Gibraltar for offences against defence regulations. It was announced. One was found with a bomb in his possession before it could be used and the other placed a bomb on a gasoline tank in a fuel enclosure at a cooling island, starting a "serious" fire.

Canadian Wounded Return Home From Italy Battlefront

—Canadian Army Photos.

Battle-scarred Canadian soldiers saw their homeland, some of them for the first time in four years, when they arrived in Halifax recently aboard the Canadian Army hospital ship, Lady Nelson. A few were repatriates from the battle of Dieppe but the majority were wounded in battles in Sicily and Italy. Top left shows Pte. H. C. Gabbey of the Loyal Edmonton Regiment whose home is near that Western city, having his jacket adjusted by Pte. L. E. Neff, of Port Colborne, Ont., a hospital ship orderly. Gabbey was wounded in the north of Sicily. Minus his arm and an ugly wound in his back Sgt. R. R. Amyot of North Bay, (top right), who was seriously wounded in a combination of wild fire and gun fighting with Huns in the streets of Nasoria, Italy. He was with the Hastings and Prince Edward Regiment. Bottom left shows Pte. H. A. Mann of Yorkton, Sask., who suffered a badly fractured leg fighting with the 8th Army in Italy. He wants to go back. Three young veterans from the Italian campaign, all from Moose Jaw, Sask., are pictured lower right. Left to right: Pte. N. J. Gamble, Sgt. Major H. M. VanBuskirk and Edr. R. M. Beatty. VanBuskirk has a wife in Britain.

Canadians In Britain Prepare For Invasion

—Canadian Army Overseas Photos.

With the invasion of Europe looming as the greatest blow of the war, Canadian troops in Britain are training night and day for the epochal landing. This picture, just received from overseas, shows how the men might be launched on their grim attack against hostile shores. In these practice manoeuvres, the boats, loaded with heavily armed fighting men, make a quick trip out to sea then turn back toward a specially prepared strip of beach. The men leap from the assault boats under a thin smoke screen spread by the Royal Navy, which will have a major invasion role, and half-wade, half scramble ashore waist deep in water. Bren gun bullets whine overhead.

SAYS CANADA MUST LOOK TO OVERSEAS MARKET FOR HER SURPLUS FARM PRODUCTS

OTTAWA.—Agriculture Minister Gardiner said in an address before the national poultry conference that Canada must look to overseas to take her surplus agricultural products after the war.

Home consumption after the war could not be much larger than it was before, and by quality production and good merchandising Canadians must sell in other lands, he said.

When the war was over, Canadian products should be established on overseas markets because of their quality, packaging and other factors, he said.

Mr. Gardiner said Canada had never known until the war came the possibilities of her agricultural production. There had been vast increases in most production lines, with an overall increase of 48 per cent. In output reported in recent figures as compared with 1938, when there were 500,000 more men and women on the farm.

Home consumption of food had increased only six per cent, in 1942 as compared with 1938, although in 1942 and 1943, Canadians were eating all they could eat.

The Atlantic charter envisioned the nations producing to the limit the

LANDSDOWNE-BANNAN

The marriage of Shirley Elizabeth, R.N., only daughter of Mr. and Mrs. S. G. Bannan, of Blairmore, to Mr. Lawrence Hillier Lansdowne, eldest son of Mrs. Isabel Lansdowne, of Alert Bay, B.C., was solemnized on Monday, January 10th, at 7:30 p.m., in the vestry of the Blairmore United church, Rev. E. B. Arrol, B.A., officiating.

After a honeymoon spent in Vancouver, Mr. and Mrs. Lansdowne will make their home in Alert Bay.

NOTES AND COMMENTS

Workers For Red Cross Required

Citizens who are prepared to give active support as well as moral support are badly needed by the local branch of the Canadian Red Cross. Attendance at the regular meetings has dwindled to a steady half dozen supporters. The work room committees are desperately in need of workers who will take material home and knit sweaters, socks, etc.

There are scores of local women, young and old, who could, if they desired, give helpful and much appreciated aid to the local Red Cross. The invasion of Europe from the west is expected from day to day. Imagine the havoc that will be wrought in France, Belgium, the Netherlands, when the Allied big guns start spewing forth shells of all calibres; think of the distress of these helpless victims of war. They will need clothing, and lots of it. Some of that clothing can be made ready right here in Coleman if more Coleman ladies would pick up more knitting needles and sewing needles in the Red Cross' behalf. Much material has been sent from this point, but much more can be sent with additional help.

Ladies, there is many an hour in the evenings when you really have nothing important to do. Why not turn those idle hours into knitting clothing for war victims. It's work from which you will gain much satisfaction. Ask the Red Cross for material and instructions on what garments are required at the moment.

Local Post-War Planning

We have all read on occasion the post-war plans of the federal and provincial governments, as well as the councils of cities such as Calgary and Lethbridge. These governments are in a position to spend anywhere from a million dollars up to hundreds of millions.

Coleman is far from being in that class, but there is no need for it not to have a few thousands of dollars available for post-war planning. For instance, the question of laying concrete sidewalks throughout town is worthy of consideration.

However, what we would like to suggest, is that the council set up a committee to study town planning, which could be incorporated into a key plan for local post-war improvements.

Then there is the matter of a tourist camp that might be built here. There is little doubt that once the war is over and conditions come back to normal there is going to be a terrific upswing in the tourist trade. It is reasonable to suppose that a hard-surfaced highway will soon wind its way through this district and connect with British Columbia. It will have the tendency to encourage tourists through the scenic Crow's Nest Pass. If we had a post-war planning committee securing data on a number of improvements it would be to the town's advantage. What we would like to see is a beautiful tourist camp here. One and two-room buildings, with light and water service; the building painted in a light color to blend with red-shale roadways and healthy lawns surrounding the camp. The tourists would naturally pay for the accommodation at the camp and one or two elderly town employees could look after it during the summer months. To encourage tourists to stop over here also has the added benefit of giving the town business which it would not otherwise receive.

Ash Collection Through Taxation

Judging from debate at the council meeting it is practically agreed that the ash and garbage fee collections will, in future, be collected through taxation.

This is a wise move and one that will be heartily concurred in by the public as a whole. An example of this has been shown in the number of citizens who voiced agreement with a similar suggestion in our editorial of last week.

By the end of this week it is expected that final agreement will have been reached in the manner in which ashes will be collected and paid for. The council are now counting all houses in the incorporated area of the town in order that they will have official figures to work on. The ashman will be given a stipulated amount each year, broken down into monthly cheques, which will be both fair to the public for services rendered and fair to the ashman, who must pay wages and maintain the upkeep of a truck.

Once it becomes official that ash fees will be collected through taxation, the landlord and tenant will have to co-operate by having the ash fee added to the rent.

Mildest Winter on Record

Can any citizen remember a winter in the past to compare with the winter we are experiencing at the present time? We have asked several local old timers, but not one is able to recall a winter to compare with this. The old time winters used to consist of one blizzard after another, with several feet of snow making its annual appearance about the first of November. Certainly, we have no complaint with this winter, despite the strong winds which prevail almost daily.

IT'S A GOOD IDEA

Thousands of fire insurance and life insurance holders testify to the economy and protection of Alberta Government Fire and Life Insurance. TREASURY BRANCH managers and agents throughout the province are fully trained to meet your insurance problems. They operate a SOCIAL SERVICE not for profit. Thanks!

A New Year commences, and to our customers throughout Canada go our sincere thanks and appreciation for the co-operation shown during 1943.

Inevitable changes have gradually been made in our Mail Order Catalogue. As our country's war effort has been retooled, many items which were once staple lines are no longer available—more confining restrictions have been placed on goods available for civilian consumption—delivery dates in some cases have been unavoidably held up.

It is your understanding of these conditions which has done much to lighten the difficult job of serving Canadian Farm homes in wartime.

T. EATON & Co.

EATON'S

Theatre Notes

A really good picture comes to the Palace screen this week end, entitled "Hangmen Also Die." It is a story of the Czechoslovakian underground in its fight against the German invader. It deals in part with the assassination of the German butcher, who was a high ranking official of the German Gestapo, and whose assassination made the front pages of newspapers throughout the world.

On Wednesday, Thursday and Friday the ever popular Bing Crosby and Dorothy Lamour appear in "Dixie." It is filmed in technicolor and the popular hot songs, Bing's comedy and beautiful scenes make it a most enjoyable picture.

At Cole's, Bellevue, this week end, is the film, "Edge of Darkness." The stars are Walter Hous-

ton, Errol Flynn and Ann Sheridan. Norwegians, Walter Houston, his daughter, Ann Sheridan, and her sweetheart, Errol Flynn, are leaders of an underground movement which is betrayed by Houston's quiescent son, John Beal. When he fails to justify Nazi brutality to himself, Beal returns to his people, participating with them in organized revolt.

At the Orpheum, Blairmore, this week end, is a double program. The first feature is titled "Jacaranda." It is a film depicting wild life. The second film is entitled "The City That Stopped Hitler." This picture is most interesting. It is a film along the March of Time style and depicts the Russian-German struggle at Stalingrad, which marked the turning point in the German fortunes of war in Russia.

C. P. R. Sends Scrap to War in Building Marine Engines

Discards, which had done a big war job already before they were considered ready for the scrap heap, were resurrected by the Canadian Pacific Railway Company at its Angus Shops in Montreal to make the improved grinder, pictured above, for grinding the radial contour of motion links for main marine engines, one of the war contracts on which the C.P.R. is engaged.

At the big shops, which are under the direction of H. B. Bowen, chief of motive power and rolling stock, and where H. R. Naylor is works manager, it was John A. Hope, shops engineer, who conceived the idea for

the machine which has eliminated many hours of labor required to draw file and scrape the radial surfaces. The motion links must be finished to meet the high standards and close tolerances demanded by the Royal Canadian Navy for engines in its escort service.

The entire machine was made of discarded material, as shown in the labels on the different parts in this picture. The main base was a discarded iron casting originally made at Angus Shops for an erection jig for the more than 1,400 Valentine tanks which were built there for service in Russia on an earlier

C.P.R. war contract. Other of the discards include the connecting rod of a locomotive, back in service now as the radial arm of the grinder after once earning retirement with a record of many thousand miles of freight to its credit.

So it went through the entire list of materials put back to work in this important war job with this old style motor, a discarded grinder frame and even balance weights from a furnace door being utilized in the machine which saves precious hours in the production of marine engine power for the hulls being fabricated in Canadian shipyards.

Canada Expects Every Dollar To Do Its Duty

All over Canada people who have been buying War Savings Certificates regularly are doubling their purchases. It takes extra effort to do this ... more economizing ... going without things.

We'll have to go without a lot of things if we don't win the war.

So among our necessities now we must put Weapons of War at the top of the list ... Guns ... and Tanks ... and Ships ... and Planes.

Mrs. J. W. Gresham Passed Away

Death claimed one more old-time resident of the Crows' Nest Pass on Saturday, January 8th, in the person of Mrs. Bertha Gresham, beloved wife of Magistrate J. W. Gresham, at Blairmore.

Mrs. Gresham had been in ill health for a long time, and her death, while expected, caused a great sense of loss to a community that knew and respected her greatly.

Mrs. Gresham came to Canada from London, England, in 1908, to join her husband, then a resident of what was known as McLaren's Mill, at a time when very little was known of what is now the Blairmore. They later resided in Frank and Blairmore, being among the first real settlers here. After a trip to England during the First Great War, through which Mr. Gresham served, they again took up residence in Blairmore, living here continuously since that time.

Left to mourn her loss are her husband; one son, Rennie, of Del Bonita, Alberta; one daughter, Mrs. L. Dunkley, of Calgary, and a brother, Mr. J. B. Harmer, of Blairmore; also two sisters and three brothers in London, England.

The remains were laid to rest in the Blairmore union cemetery on Tuesday, Jan. 11, following service conducted at the Crows' Nest Pass Funeral Home by Rev. J. W. Macdonald, of Red Deer, assisted by Rev. E. B. Arrol, B.A., of Central United church.

Pallbearers were: Sergt. T. E. Mudiman, Constables S. Brodie and G. Meffan, F. M. Thompson, R. W. H. Pinkney and S. J. Rowe.

Labor Supply In the Coal Mining Industry

Hon. Humphrey Mitchell, minister of labor, announces that a net increase of 3,122 workers was reported by coal mines throughout Canada from June 1st to November 30th, 1943. Of the total, 1,100 were added by mines in the Maritimes, 1,832 on the prairies and 190 in British Columbia.

Most of the net addition, the minister explained, followed from three main sources: first, the compulsory return of ex-coal mine workers to the industry under Selective Service; second, the voluntary return on leave of skilled miners from the armed forces (who have co-operated by granting leave to experienced coal miners); and third, the recruitment through the Selective Service offices of other workers, mainly unskilled. Also, just recently on the prairies there has been a return for the winter months of some farmers who work seasonally at coal mining during the winter.

Mr. Mitchell pointed out that a governing factor in building up the staffs of the mines is the shortage of "producers." Coal mining is a skilled occupation, which normally requires an extended apprenticeship, and while Selective Service could provide additional workers, they are unskilled, and can be absorbed only by the mines in proportion to the number of additional skilled producers who are located. The shortage of skilled producers is still rather acute, particularly in the Maritime Provinces and on Vancouver Island.

Of the net addition of 3,122 to the staffs of the coal mining companies, 1,023 were skilled producers, 1,371 were other underground workers (mostly semi-skilled) and 718 were surface workers, most of whom are

unskilled.

The net additions brought the total employed in Canadian coal mines at November 30th last to 27,986, compared with 24,864 as June 1st last. The net addition at November 30th compared to a year before was about 3,000.

"While the coal shortage which was foreseen last May when the government declared labor supply for the coal mines to be a national emergency," said Mr. Mitchell, "has not been obviated completely, the outlook has improved. Production of Canadian coal from April to November (inclusive) stands at 11,253,000 tons, compared to a total approximately 600,000 tons greater in the same months of 1942. But for the net additions to working forces, the falling off in production would have been much more substantial. However, with these net additions, it is anticipated that production in the immediate future will stand better by comparison with a year before."

The minister of labor said that other factors, in addition to the number of workers available, influence the output of coal in Canadian mines. The nature of the workings, transportation facilities and the availability of supplies all have their influence. He added that National Selective Service still has the problem under constant study, with a view to maintaining the number of workers who can be absorbed. However, under the orders in council of May last, practically every ex-coal mine worker who is physically fit and who was engaged in any other industry, has now been returned to the mines. The leaving of the mines simply for the purpose of seeking alternative employment has been virtually stopped. Greater stability of mine working staffs may be expected in the future.

...V...
Bobby Burns' 185th anniversary will be observed by the Bellevue Caledonian Society on the night of Tues-

day, January 25th. The programme will include haggis, songs, toasts, dances, readings and speeches, and will wind up in a grand march and dance. Officials in charge of arrangements are: William Kerr, president; David Young, vice-president; Isaac Hutton, secretary, and Pat McLafferty, treasurer. Miss Myrtle Johnston and Pipe Major Moore will handle the bagpipes.

Appointed Supervisor

Miss Edith (known as "Betty") Hemmingson, who has been appointed Supervisor of Stewardesses for Trans-Canada Air Lines, with headquarters at Winnipeg. Formerly Chief Stewardess at Lethbridge, she entered T.C.A. service in 1941. Miss Hemmingson was born at Manson, Man., and is a graduate of St. Boniface hospital.

Airway Plan

Western Canada Shows Enthusiasm For New Airports

C. R. Patterson, president of the Aeronautical Institute of Canada, said in an interview in Toronto that the provinces and principal cities of Western Canada have shown enthusiasm for a plan to establish 400 new airports and landing strips across the Dominion, capable of employing 20,000 to 25,000 demobilized R.C.A.F. personnel after the war.

Home from a tour of the Canadian West, Mr. Patterson said the plan, projected by the Aeronautical Institute and the National Industrial Federation, was favored by 22 communities from Winnipeg to Victoria and by provincial officials of Saskatchewan and Manitoba.

Had Great Career

Late Sir Dudley Pound Was Most Efficient Naval Officer

The late Admiral of the Fleet Sir Dudley Pound had greater experience of naval affairs ashore and ashore in war and in peace than any other officer on the active list of the Royal Navy, states the London Daily Sketch. In the last war he was second in command of the battleship St. Vincent and commanded the battleship Colossus at the Battle of Jutland. He also served at the Admiralty. As a Rear-Admiral he commanded a battle cruiser squadron and on promotion became Second Sea Lord. He was Commander-in-Chief Mediterranean for a longer period than any other officer and was naval head of the Admiralty for a greater period than any other member of the Board of Admiralty either in the last war or this. Twice he saved the lives of men of his ships' companies—once by diving overboard and on another occasion by going down into a gassed potato locker.

Join Up

Children Evacuated From Britain Have Enlisted In Services In Dominion

Many boys among the 2,600 children evacuated to the Dominions by the British government early in the war have joined the army, air force or navy of the Dominion they were sent to and only a "negligible percentage" have returned to Britain.

"Those who have joined up in the Dominions are giving a splendid account of themselves," said an official of the Children's Overseas Reception Board, the government liaison between parents here and foster parents in the Dominions.

Used Electric Ear

Woman Has Measure Noise Made By An Enraged Rattlesnake

Although the announcement does not say so, it may be assumed that some useful purpose has been served by Miss Bella McClurkin, of the General Electric laboratories, who with the aid of an "electric ear" has measured the noise made by an enraged rattlesnake 3 feet 7 inches long. She found that the noise amounted to 75 decibels, the equivalent to that made by half a dozen typewriters (not noiseless) in action or the clatter of dishes in a small restaurant.—New York Herald Tribune.

WORLD HAPPENINGS BRIEFLY TOLD

Miss Ellen Godfrey, Sheffield, Eng., bequeathed \$225 to each of the widows and orphans of Sheffield air raids.

Dr. Liu Shih Shun, Chinese minister to Canada, has been presented with a six-pounder anti-tank gun and equipment for the Chinese army.

Restoration work on more than 150 Russian coal mines in the Donets basin is in full swing, Assistant Commissar Abakumov said.

A copy of John Milton's "Paradise Lost," printed on vellum and published in 1902, realized \$279 at a London sale.

French police estimate that 500 persons, Frenchmen and Germans, meet violent death every day throughout France, a Paris despatch to the Tribune de Geneva said.

The President of Brazil has presented the United States armed forces with 40,000 bags of coffee valued at \$5,000,000 as a gift from the people of Brazil, a token of good will.

The Northwest African Air Force announced that since the original Allied landings in North Africa 22,526,485 tons of shipping have been escorted through the Mediterranean with losses of 1½ per cent.

The Duchess of Kent is selling much of the furniture of her former London home in the West End. The greater part of the furniture has been in storage since the house was damaged during an air raid.

Charles Fennel, 63, who sold more than \$2,000,000 worth of savings certificates on his own in the last four years, died suddenly at Newbury, England. He was chief and sold the certificates in his spare time.

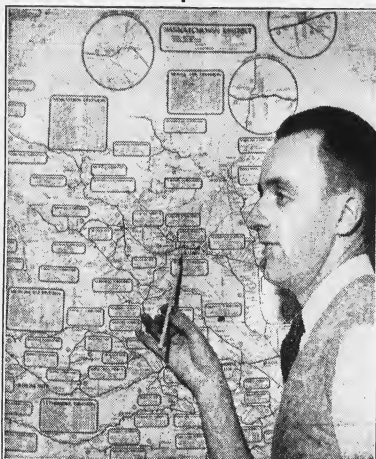

In Red Cross Service

New Swedish Ship Will Carry Canadian Wheat To Greece

The Berne radio said that the new Swedish ship Skagar, 2,980 tons, will be used to carry shipment of wheat for the International Red Cross from Canada to Greece. The broadcast, recorded by CIBS, quoted a message from Stockholm. It also said that the Hungarian, likewise a new ship, will carry packages for prisoners of war from the United States to France.

Both ships will be in service of the Red Cross.

This Map Tells All

It is hard to decide whether the above map, shown with its creator, Grahame Cairns, draughtsman in the Canadian Pacific Railway's engineering office, Winnipeg, is a chart or a sort of quick-glance encyclopedia of railway information. Working diligently for many months, Mr. Cairns transferred from a score of books and records a wealth of information onto a map 11 feet long and three feet wide, showing western lines of the C.P.R. Clearly shown are all stations, sidings, junctions, subdivisions, divisions and districts, with mileages, summaries of mileages. Terminals, divisions and districts are also summarized. Double-track portions, joint-section track-ages, standard time zones and provincial boundaries also are delineated, together with connecting or adjacent foreign lines. Also, however, the map incorporates valuable historical data showing when each line was constructed and when it was turned over to the operating department. The map gives the history of the development of the C.P.R.'s lines in the west at a glance. Railwaymen who like the idea of having all information on one piece of paper already are clamoring for prints of the Winnipeg man's unique chart.

Sight For Children

Test-Lighting Of English Town Was Unfamiliar Spectacle

A glimpse of what it will be like "when the lights go on again" was afforded the London borough of Deptford by test lighting the borough's main street.

People rushed into the street to see the unfamiliar spectacle. Children, some of whom had never seen the lamps lit, exclaimed to one another.

The lights of London, like those all over Britain, have been blacked out since a few days before war broke out in 1939.

Before the war, Britain produced one-third of her food, now she produces two-thirds.

SUNDAY SCHOOL LESSON

JANUARY 23

JESUS TEACHES IN PARABLES

Golden text: If any man hath ears to hear, let him hear. Mark 4:23.

Devotional Reading: Deuteronomy 8:1-10.

Explanations and Comments

The Parable of the Sower, Mark 4:1-9. The opposition of the religious leaders closed the synagogues to Jesus and he began to teach by the sea-side. So large a number congregated to hear him that he had to seek a pulpit on a boat anchored off from the shore. Here he taught them many things by parables. The Greek word from which our word "parable" is derived means "to put one thing beside another." Jesus' parables picture things in nature which have their counterpart in the spiritual life.

The first parable that Jesus told on this special day was the parable of the Sower with its prodigal hand sowing seed in four kinds of soil. In the interpretation of the parable, verses 14 and 15, Jesus explains that he himself is the Sower, for the seed sown is the Word of God (Lk. 8:11). Some of the seed fell on paths through the unfenced fields and was quickly devoured by the birds. That wasteful path was once as fit for the reception of seed as the rest of the field, but it had been trodden till the soil was packed, and the seed fell on it, not into it. Like that hard soil are the minds of some men, closed impenetrably to the word of God.

Other seed fell on rocky ground. The ground was covered with a thin layer of soil and the rock beneath was not visible, but there it was, and the shallowness of the soil prevented the developing seed from striking its roots deep and firm. The heat of the sun causes a quick germinating and equally quick withering. An exact picture this of thousands who are touched by some fervent address, whose impression is only temporary and "for a time."

Yet other seed fell where there were thorns which choked the plants that developed before they could produce fruit. "When the grain begins to spring up, there is a struggle between it and the bolder, sturdier thorn. After an ineffectual effort to assert itself, the slender wheat plant gives up the contest and conceals itself with what energy remains over, when its harder antagonist has taken all it required."

"Notice how carefully our Lord discriminates between the different kinds of thorn, verses 18 and 19. Care steals away the strength of the heart in the poor; wealth in the rich; pleasure-seeking in all, especially the young. It is not other things that are wrong, but the lusts of other things, i.e., inordinate love; and the multiplicity of interests, which drain away the attention and divert the righteousness of the soul."

Demand Cash

Some Firms Dealing With Germany Are Not Giving Credit

Lyons silk manufacturers, who have been supplying a large part of their products to Germany for making parachutes, are holding up material because they have not received payment according to contract. They now want a "cash-and-carry" arrangement in place of a long-term payment basis.

Famous Dombey sherry firm of Spain have issued an order for approximately £10,000 worth of wine placed by a German firm. The Spanish company required 50 per cent. cash on delivery. The German firm was unwilling or unable to meet this request.—London Daily Sketch.

Nearly one-quarter of China, land which once grew crops and great forests, is now a desert of bare hills without enough soil to support the growth of the toughest weeds.

All Resources Needed

War Production Must Continue To Make Coming Invasion Successful

"There will be no margin" when the real assault begins.

Those who have been assuming that the time for war production is over might ponder these words by Mr. Eden:

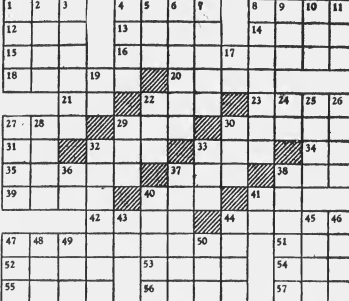

"Military plans which he laid down at Tehran call for all Allied resources in every respect."

"There will be no margin and it is going to take all our energies to fulfill demands which will be made upon us in very near future."

In other words Mr. Eden intimates that when the major attack on Germany begins, perhaps very soon, all available supplies and resources will be thrown into the struggle. There will, he says, be "no margin." Nothing will be left over. So if there is to be the reserve that prudence demands production facilities will have to be kept operating.—Sault Daily Star.

REG'AR FELLERS—Soft For Pud!

Local News

Mrs. Russell Ferguson visited at Pincher Creek at the week-end.

Mr. Charles Nicholas is a business visitor at Calgary and Edmonton this week.

Wilfrid Dutil received a card from Johnny Smith this week, who is in Montreal.

Oliver Salvador, RCAF, Calgary, is visiting his wife and baby for a few days.

Mrs. R. Beddington and son left on Friday for their home at Red Deer after spending a holiday with former's parents, Mr. and Mrs. H. Hulbert.

Mr. Archie Vale, of Granum, is the guest of his sister, Mrs. W. Clarke, and Mr. Clarke.

Mrs. E. Fontano and young daughter are the guests of Mrs. John Bayon, of Calgary.

Mrs. Jack Robinson, of Calgary, is the guest of her parents, Mr. and Mrs. A. Beveridge.

Wanted—Second hand beds, stoves and chairs in fairly good condition. Square Deal Second Hand Store, Coleman.

Mrs. R. Rhodes and children have returned to their Pincher Creek home after several weeks visit with the former's parents, Mr. and Mrs. Wm. Antle.

Miss Violet Sapeta, of Vancouver, is spending a vacation with her parents, Mr. and Mrs. Albert Sapeta.

Miss Joan McQuarrie, of Vancouver, is spending a holiday with her parents, Mr. and Mrs. C. McQuarrie.

Mrs. J. Irving, of the Post Office Staff, was confined to her home a few days this week due to sickness.

The Journal is pleased to welcome as one of its new subscribers, Mrs. Mary E. Hovan, of Lethbridge.

Mrs. George Goreak and Mrs. Joe Goreak, of Veteran, have left for their respective homes after a two weeks visit here.

A ladies' and gents' whist drive will be sponsored by the St. Alban's Ladies' Guild on Friday, Jan. 28, in the parish hall.

JET FOR POLISHING HOT Stoves is a Boon. Winter months mean hot stoves always. "JET" is safe, handy. Sold everywhere.

Born: To WO2 and Mrs. J. E. Seaman, nee Isobel McDonald, at St. Joseph's hospital, Glace Bay, N.S., on Tuesday, Jan. 18, a son.

The high winds of the past few days resulted in completely wrecking one of the doors of St. Alban's church and blowing over the fence at the CPR station.

Miss Elvina Molina, of Trail, is visiting her brother-in-law and sister, Mr. and Mrs. A. R. Montalbet, and her brother-in-law, Mr. Angelo Toppano, for a few weeks.

Mrs. John Bayon and daughter left on Friday for their Calgary home after visiting a few weeks with the former's parents, Mr. and Mrs. Dave Gillespie.

Mr. Hugh Dunlop, who has been teaching at Picture Butte, has now taken a school in the Lundbreck district. He was the week-end guest of his mother, Mrs. H. Dunlop.

Joseph D. Hayden, of Bellevue, enlisted in the Canadian active army at Calgary on Wednesday, Jan. 12. He was formerly employed with the Royal Canadian Mounted Police.

Mrs. Russell Vincent and daughter Margaret left on Friday for Edmonton. Mrs. H. Campbell, of Erickson, B.C. and mother of Mrs. Vincent, returned to her home on Friday after visiting her daughter and Mr. Vincent.

Reginald McMullen, formerly an employee of Ironside & Park Dry Cleaners, when they operated here a few years ago, has joined the armed services and is based in the Bahamas. His brother, Herbert, is serving overseas with the Canadian Army.

To Count All Homes

(Continued from Page 1)

A healthy debate was soon in progress regarding the ash problem. All councillors gave their views on the matter and on one point they were unanimous, and that was "there were to be no more house-to-house collection of monthly fees."

In order to get official figures with which to work it was agreed that town foreman Joe Malanchuk start immediately Tuesday morning to count all houses within the incorporated area of the town of Coleman. He would take a blue-print and mark the number of houses on each lot, whether it be one home or three shacks, also the names of the owners of the various properties. It was expected that Mr. Malanchuk would complete the survey this week and upon completion Mayor Antroub was authorized to call a special meeting to deal with the ash problem. Outside of getting this survey nothing definite has been settled by council.

Council understands the Androsak property on Second street is vacant. If such is the case the Androsak youth will be approached and asked to remove such furniture as is stored there. Council, who has title deeds to the home, will then take steps to rent it. The money at present being paid

by the town for the upkeep of the two Androsak girls will be debited to the house.

The vacant lot on main street located between Abousaff's and Coleman Meat Market will be advertised for sale.

The police committee stated that the only report it could bring in to help control the recent crime outbreak was the addition of night policeman. It was admitted that they did not think this would be accepted as the town was not in a financial position to employ another policeman. One councillor suggested that the Attorney General's department be approached with the idea of having one of the R.C.M.P. at the Blairmore detachment stationed in Coleman, the town council to share part of the expenses in keeping the constable here. The idea was considered worth trying and a letter was authorized to be written the Attorney General.

Accounts: Coleman Meat Market, \$40.80; Municipal Supplies, \$1; W. Bobbitt, 19.00; Mothers' Allowance, 30.00; Holy's, 29.50; McBurney's, 12.85; King's Printer, 7.50; Telephones, 91.50; The Motordrome, 7.73; Geo. Pattinson, 12.15; Excel Builders, .93; City of Edmonton, 15.00; Light and Water, 277.08; McGillivray Creek Coal, 9.50; Red and White, 17.00.

Red Cross Dance In Polish Hall This Saturday Night

R. C. Dances Jan. 22 and 29; P. S. Dances Feb. 5 and 12.

An agreement has been reached between the Red Cross and Polish Society to go 50-50 on the dances being sponsored in the Polish hall in East Coleman.

The Red Cross will receive the proceeds from the dance this Saturday and also the following Saturday, Jan. 29. The Polish Society will have the dances on Feb. 5 and 12, and then the Red Cross will take over for the two Saturdays after that, and so on during the winter and spring months.

President W. Dutil and Miss Yuill will supervise the dance this Saturday evening. The public is cordially invited to attend. Admission prices remain the same as in previous Red Cross dances, gents 35c and ladies 25c.

The present arrangements between the two organizations will allow both to raise much needed funds.

WEDDINGS

WATMOUGH—WILSON
The residence of Rev. R. B. Layton, minister of Westminster church, Medicine Hat, was the scene of a quiet and pretty wedding on Monday, Jan. 3, when Elizabeth, eldest daughter of Mrs. Wilson, of Lethbridge, became the bride of Mr. Gilbert Watmough, son of Mrs. Mabel Watmough, of Medicine Hat.

The bride was given in marriage by Mr. L. MacDonald, cousin of the bridegroom, while the bridegroom's brother, Mr. Roy Watmough, of Coalhurst, was best man, and Miss Nancy Ramage, also of Coalhurst, was bridesmaid.

The bride looked charming in a beige gown with accessories to match. The bridesmaid wore an Irish green gown with accessories to match.

At the reception, the mother of the bridegroom, receiving with the bride couple, looked charming in a pale blue chiffon gown with deeper blue accessories to match. Mrs. Layton entertained interestingly while the bride and groom were signing the register.

The happy couple have returned to Lethbridge, where they will take up residence.

In Memoriam

TOPPANO—In Loving Memory of our dear ones who passed away on Jan. 19, 1943.

I cannot say and I will not say
That she is dead—she is just away!
With a cheery smile and a wave of the hand
She has wandered into an unknown land
And left us dreaming how very fair,
It needs must be, since she lingers there.

Think of her faring on, as dear in the Love of There,
As the Love of Here.

Think of her still as the same, I say,
She is not dead, she is just away.

Sadly missed by Angelo, Mary, Norma, Mother and Dad, sisters and brother.

There is to be some distribution of small arms ammunition for sporting purposes later this year.

The Churches

ST. ALBAN'S CHURCH
Rev. J. R. Hague, A.Th., Incumbent.

2 p.m., Sunday school.
7 p.m., Evensong and sermon.
The annual meeting of St. Alban's Parish will be held on January 24th at 7:30 p.m. in the church hall. It is hoped that each member of the congregation will make a special effort to attend. Refreshments will be served.

ST. PAUL'S UNITED CHURCH
(G. A. Kettys, Pastor)

Sunday, January 9
Sunday school at 12:15
Evening Worship at 7 p.m.
At the evening service, pictures of our Mission work in West Africa will be shown.
A cordial invitation to all.
